### WORK EXPERIENCE

#### SOFTWARE DEVELOPER/SINTEL TI, QUERETARO, QUERETARO MX MARCH 2020 - SEPTEMBER 2022 (REMOTE)

- Develop a point of sale (Super Q ERP) to administrate a convenience store.
- We developed Java API with grails library to process all the request to the database.
- Database created in SQL Server to storage information.
- Frontend developed in JavaFX and Java.

#### SOFTWARE DEVELOPER/SUPER Q, QUERETARO, QUERETARO MX SEPTEMBER 2022 - MAY 2023

- Implements the Super Q ERP on 220 stores and solve bugs.
- Develop a web page to administrate a point of sale. Developed in Html, CSS, Bootstrap, jQuery, Ajax and JavaScript, also we create a java API with grails library to process all the petitions to the data base.
- Develop a web page to consult reports where backend was developed in NodeJs, Frontend in React and Data Base in SQL.

#### SOFTWARE DEVELOPER/SANTANDER, QUERETARO, QUERETARO MX MAY 2023 - APRIL 2024 (REMOTE)

- The project "Migracion de constancias fiscales" had the purpose to migrate only the information related with tax records, the information was in a database storage.
- We migrate a data base (old model) to a new data base model, we just considered constancias fiscales information.
- We analyzed all the information to format that to the new model.
- We develop a software based in Spring Bach to process the information in lots.

### PROJECTS.

- **Portfolio:** There you can read more about me, it's a web based in react (click on my web link) <https://daniel13alfa.github.io/Portfolio/>
- **Hospital web:** I developed that project to get hired in a job, it's a simple web to administrate hospital supplies, the front is based in react and also it uses axios to do the petitions to the api, the back is developed in Node Js and the data base is working in sql erver. You can visit my project in the next link. <https://daniel13alfa.github.io/HospitalWeb/>.
